...

Thanks Dante.

Let me see if we will be able to incorporate these requests into the May 2015 report. I'll let you know if we have any questions or need to discuss further.

Thanks,

-jack

Jack,

I was going through my to-do list and didn't find evidence that I had followed up with you regarding YPT's comments on the October 2014 monthly report. I was supposed to send you the EPA/NDEP response letter to YPT, along with some items that the agencies want you to begin including in your monthly reports. So, in case I hadn't already provided it, here is the letter to YPT and the follow-up items for you. Let me know if you would like to discuss. Thanks!

-Dante

Jack –

Please begin adding the following items to the monthly site reports:

∀ Monthly precipitation totals; event totals if possible;

∀ Units for the leak detection table; acronyms for the same;

∀ Average daily leakage rates and maximum daily leakage rate for each leak detection system, for each month, in gallons/acre-day (add to "Monthly Leak Detector Data" table or create new table).

If you would like to send us a draft spreadsheet addressing these items, we can give immediate feedback to ensure satisfaction. Let me know if you have any questions or would like to discuss.

Thanks!

Dante Rodriguez
